

New guide and factsheet!

Tom Coleman

2025-02-13

Summary

Guide on solving simultaneous equations available now!

Update

It's new guide time here at STARMAST! The topic is on an introduction to solving simultaneous equations, written by Ollie Brooke, a participant in the University of St Andrews VIP project in Semester 1 2024/25. The online versions of the guides are equipped with interactive figures powered by Desmos.

The links to the guide, questions and answers can be found here:

- [Guide: Introduction to solving simultaneous equations](#)
- [Questions: Introduction to solving simultaneous equations](#)
- [Answers: Introduction to solving simultaneous equations](#)

A big thank you to Ollie for writing these materials.

In addition to this, Millie Pike (one of our new VIP students) has produced a fact-sheet containing all the laws of logarithms in [Guide: Introduction to logarithms](#). This material can be found here:

- [Factsheet: Laws of logarithms](#)

Stay tuned for more content coming soon, including our first guides on statistics – finally putting the last ST in STARMAST!
