AUDIO GUIDES

Everyone learns differently. That's why our team is adding audio to our guides so you can study maths and stats in a way that suits you.

Audio guides offer a flexible and accessible way to connect with concepts, helping to support different learning preferences and visual impairments.

It's one more step in our ongoing journey to make learning maths and stats more accessible and inclusive to all.

Some audio guides are already available, with more on the way, so stay tuned!

WEB HOSTING

We're now hosted on Netlify, which opens the door to future features like a mailing list, progress tracking, and much more!
